

Known to historians as the Artemisian, this giant Greek temple was a wonder in it's time, not just because of it's size but because of its beautiful decoration and statuary. Other temples were built hoping to emulate it's beauty, but none ever really achieved the same notoriety as the Artemisian. This quote was written by Antipater of Sidon, "But when I saw the sacred house of Artemis that towers to the clouds, the [other Wonders] were placed in the shade, for the Sun himself has never looked upon its equal outside Olympus."
